**Manajemen Periklanan** Rachmat Kriyantono, 2013-03-31 Menarik untuk disampaikan bahwa iklan pada dasarnya mengusung dua kepentingan besar. Pertama, sebagai sebuah karya dengan kreativitas yang diusungnya dapat merepresentasikan kepribadian, positioning, dan diferensif produk. Di sisi lain, kedua iklan tentu saja sebagai salah satu promotion tools untuk dapat merangsang adanya pembelian produk. Untuk menjawab dua hal inilah, kehadiran buku ini saya pikir dapat menjadi salah satu alternatif wacana. Setelah membaca buku ini, saya memandang bahwa kajian-kajian periklanan telah secara jernih dan jelas dibahas dengan bahasa yang mudah dipahami oleh mahasiswa. Sebagai buku ajar, saya optimis buku ini dapat memudahkan proses transfer informasi tentang seluk-beluk dunia periklanan. Dilengkapi pula dengan contoh-contoh yang memudahkan penjelasannya." (Dr. Bambang D.P, S.Sos, M.Si -Ketua program pascasarjana Ilmu Komunikasi UB Malang – dalam kata pengantar di buku ini). Buku Manajemen Periklanan ini dapat digunakan oleh para pelaku periklanan maupun sebagai materi ajar mata kuliah Manajemen Periklanan. Buku ini membahas secara detail dan komprehensif proses manajemen periklanan, Mulai dari perencanaan, penyusunan tujuan, implomentasi hingga evaluasi kampanye periklanan. Selain itu, buku ini juga membahas faktor-faktor lain yang mempengaruhi berjalannya proses tersebut, seperti perilaku konsumen maupun kode etik dan regulasi periklanan.

**The Year of Living Dangerously** Christopher Koch, 2012-12-08 Jakarta, 1965. Waiting for explosions, the city smells of

frangipani, kretek cigarettes, and fear. It is THE YEAR OF LIVING DANGEROUSLY. the charismatic god-king Sukarno has brought Indonesia to the edge of chaos - to an abortive revolution that will leave half a million dead. For the Western correspondents here, this gathering apocalypse is their story and their drug, while the sufferings of the Indonesian people are scarcely real: a shadow play. Working at the eye of the storm are television correspondent Guy Hamilton and his eccentric dwarf cameraman Billy Kwan. In Kwan's secret fantasy life, both Sukarno and Hamilton are heroes. But his heroes betray him, and Billy is driven to desperate action. As the Indonesian shadow play erupts into terrible reality, a complex personal tragedy of love, obsession and betrayal comes to its climax. 'A profound and beautiful book' - Les Murray, the Sydney Morning Herald 'A richly and fully realised work of fiction, well conceived and beautifully executed.' - Larry McMurtry 'Intelligent, compassionate, flavoursome, convincing ... In Billy Kwan, Mr Koch has created one of the most memorable characters of recent fiction. this book is to be prized.' - the times Literary Supplement

**The Impact of Active and Passive Smoking Upon Health and Neurocognitive Function** Thomas Heffernan, 2016-09-14 Tobacco smoking is a major risk factor for a number of chronic diseases, including a variety of cancers, lung disease and damage to the cardiovascular system. The World Health Organization recently calculated that there were 6 million smoking-attributable deaths per year and that this number is due to rise to about eight million per year by the end of 2030. Recent work has demonstrated that habitual smoking in adults is not only associated with a range of health problems, but may also contribute to a number of neurocognitive deficits, including deficits in memory and attention. One area of growing concern is the health and neurocognitive consequences of exposure to second-hand smoke or “passive smoking” (where a non-smoker inhales another person’s smoke, mainly in the form of side-stream smoke). In terms of tackling smoking-related problems, there has been a rise in the amount and range of smoking cessation and interventions techniques, including the emergence of e-cigarettes as one of the most popular forms of nicotine replacement therapies. The present book comprises a collection of manuscripts discussing (1) the impact of active and passive smoking upon health and neurocognitive function, (2) smoking cessation techniques and interventions used to tackle smoking-related problems, and (3) a critical consideration of current issues surrounding the use of e-cigarettes as nicotine-replacement therapy. This collection of papers includes empirical, theoretical, and review papers. This Research Topic demonstrates the broad nature of research currently being undertaken in this field and should pave the way for future work.

Cigarette Smoke Toxicity David Bernhard, 2011-02-16 Smoking causes and contributes to a large number of human diseases, yet due to the large number of potentially hazardous compounds in cigarette smoke -- almost 5,000 chemicals have been identified, establishing the link between smoking and disease has often proved difficult. This unbiased and scientifically accurate overview of current knowledge begins with an overview of the chemical constituents in cigarette smoke, their fate in the human body, and their documented toxic effects on various cells and tissues. Recent results detailing the many ways

components of cigarette smoke adversely affect human health are also presented, highlighting the role of smoking in cardiovascular, respiratory, infectious and other diseases. A final chapter discusses current strategies for the treatment and prevention of smoking-induced illness. Despite the obvious importance of the topic, this is the first comprehensive reference on tobacco smoke toxicity, making for essential reading for all toxicologists and healthcare professionals dealing with smoking-related diseases.

**Poucher's Perfumes, Cosmetics and Soaps** H. Butler, 2013-06-29 Poucher's Perfumes Cosmetics and Soaps has been in print since 1923 and is the classic reference work in the field of cosmetics. Now in a fully updated 10th edition, this new volume provides a firm basic knowledge in the science of cosmetics (including toiletries) as well as incorporating the latest trends in scientific applications and legislation which have occurred since the 9th edition. This edition will not only be an excellent reference book for students entering the industry but also for those in specialized research companies, universities and other associated institutions who will be able to gain an overall picture of the modern cosmetic science and industry. The book has been logically ordered into four distinct parts. The historical overview of Part 1 contains an essay demonstrating William Arthur Poucher's influence on the 20th Century cosmetics industry as well as a chapter detailing the long history of cosmetics. Part 2 is a comprehensive listing of the properties and uses of common cosmetic types, ranging from Antiperspirants through to Sunscreen preparations. There are an increased number of raw materials in use today and their chemical, physical and safety benefits are carefully discussed along with formulation examples. The many additions since the last edition demonstrate the dramatic recent expansion in the industry and how changes in legal regulations affecting the development, production and marketing of old, established and new products are operative almost worldwide. Information on specialist products for babies and others is included within individual chapters. The chapters in Part 3 support and outline the current guidelines regarding the assessment and control of safety and stability. This information is presented chemically, physically and microbiologically. Part 3 chapters also detail requirements for the consumer acceptability of both existing and new products. Those legal regulations now in force in the EU, the USA and Japan are carefully described in a separate chapter and the remaining chapters have been extensively updated to explain the technical and practical operations needed to comply with regulations when marketing. This information will be invaluable to European Union and North American companies when preparing legally required product information dossiers. The final chapters in Part 4 contain useful information on the psychology of perfumery as well as detailing methods for the conduct of assessment trials of new products. As ingredient labelling is now an almost universal legal requirement the International Nomenclature of Cosmetics Ingredients (INCI) for raw materials has been used wherever practicable. The advertised volume is the 10th edition of what was previously known as volume 3 of Poucher's Cosmetics and Soaps. Due to changes in the industry there are no plans to

bring out new editions of volume 1 and 2.

**Suharto** R. E. Elson, 2001-11-13 Publisher Description

Hitlers Griff nach Asien 1 Horst H. Geerken, 2015-11-11 Horst H. Geerken lebte von 1963 bis 1981 in Indonesien. Neben seiner beruflichen Tätigkeit für einen deutschen Konzern bereiste er intensiv große Teile des indonesischen Archipels und wurde so zum Kenner von Land, Kultur und Menschen. Immer wieder stieß er sowohl bei seinen beruflichen wie auch privaten Aktivitäten auf Zeitzeugen, die die Zeit der japanischen Besetzung und die Präsenz der Deutschen Kriegsmarine in Indonesien noch erlebt hatten. Das weckte sein Interesse dauerhaft und später recherchierte er ausgiebig in deutschen und indonesischen Archiven und gewann erstaunliche Erkenntnisse. Die Beziehungen des Deutschen Reichs zum damaligen Niederländisch-Indien waren offenkundig viel intensiver und vielfältiger als bisher angenommen. Kaum jemandem ist bekannt, dass Hitlers Interesse an dem so weit entfernten Archipel außergewöhnlich stark war und dass tausende deutscher Marinesoldaten in Ost- und Südostasien im Einsatz waren, oder dass deutsche U-Boote bis weit in den Pazifik vordrangen. Der Autor hat seine Erkenntnisse in den zwei Bänden ‚Hitlers Griff nach Asien‘ verarbeitet. Es ist eine faszinierende Dokumentation über die deutsche Kriegsführung in einer Region, die bisher von Historikern vernachlässigt worden ist. (A.B.)

*Language of Conflict* Natalia Knoblock, 2020-06-11 Exploring the ways in which language and conflict are intertwined and interrelated, this volume examines the patterns of public discourse in Ukraine and Russia since the beginning of the Ukrainian Crisis in 2014. It investigates the trends in language aggression, evaluation, persuasion and other elements of conflict communication related to the situation. Through the analysis of the linguistic features of salient discourses and prevalent narratives constructed by different social groups, *Language of Conflict* reflects competing worldviews of various stakeholders in this conflict and presents multiple, often contradictory, visions of the circumstances. Contributors from Ukraine, Russia and beyond investigate discursive representations of the most important aspects of the crisis: its causes and goals, participants and the values and ideologies of the opposing factions. They focus on categorization, stance, framing, (de)legitimation, manipulation and coping strategies while analysing the ways in which the stress produced by social discord, economic hardship, and violence shapes public discourse. Primarily focusing on informal communication and material gathered from online sources, the collection provides insight into the ways people directly affected by the crisis think about and respond to it. The volume acknowledges the communicators' active role in constructing the (often incompatible) discursive images of the conflict and concentrates on the conscious and strategic use of linguistic resources in negative and aggressive communication.

*Szasz Under Fire* Jeffrey A. Schaler, 2015-11-05 Since he published *The Myth of Mental Illness* in 1961, professor of psychiatry Thomas Szasz has been the scourge of the psychiatric establishment. In dozens of books and articles, he has argued passionately and knowledgeably against compulsory commitment of the mentally ill, against the war on drugs, against the insanity defense in criminal trials, against the diseasing of voluntary human practices such as addiction and homosexual behavior, against the drugging of schoolchildren with Ritalin, and for the right to suicide. Most controversial of all has been his denial that mental illness is a literal disease, treatable by medical practitioners. In *Szasz Under Fire*,

psychologists, psychiatrists, and other leading experts who disagree with Szasz on specific issues explain the reasons, with no holds barred, and Szasz replies cogently and pungently to each of them. Topics debated include the nature of mental illness, the right to suicide, the insanity defense, the use and abuse of drugs, and the responsibilities of psychiatrists and therapists. These exchanges are preceded by Szasz's autobiography and followed by a bibliography of his works.
