100 Birds and How They Got Their Names Diana Wells, 2001-10-30 How did cranes come to symbolize matrimonial happiness? Why were magpies the only creatures that would not go inside Noah's Ark? Birds and bird imagery are integral parts of our language and culture. With her remarkable ability to dig up curious and captivating facts, Diana Wells hatches a

treat for active birders and armchair enthusiasts alike. Meet the intrepid adventurers and naturalists who risked their lives to describe and name new birds. Learn the mythical stories of the gods and goddess associated with bird names. Explore the avian emblems used by our greatest writers--from Coleridge's albatross in *The Ancient Mariner* to Poe's raven. A sampling of the bird lore you'll find inside: Benjamin Franklin didn't want the bald eagle on our National Seal because of its bad moral character, (it steals from other birds); he lobbied for the turkey instead. Chaffinches, whose Latin name means unmarried, are called bachelor birds because they congregate in flocks of one gender. Since mockingbirds mimic speech, some Native American tribes fed mockingbird hearts to their children, believing it helped them learn language. A group of starlings is called a murmuration because they chatter so when they roost in the thousands. Organized alphabetically, each of these bird tales is accompanied by a two-color line drawing. Dip into *100 Birds* and you'll never look at a sparrow, an ostrich, or a wren in quite the same way.

Will to Live Matthew Ames, Diane Ames, 2017-06-19 This is a remarkable story. It will change the way you look at life. For a couple of weeks, Matthew Ames didn't feel well. The busy father of four young children knew things were not quite right but suddenly he was in Emergency, with a severe case of toxic shock syndrome. He was put into an induced coma and the only way he could be kept alive was to have all his limbs amputated. Diane Ames knew exactly what her husband would want and that he would cope - he had always been optimistic and practical. Despite a one per cent chance of survival, she asked the doctors to go ahead with the radical operation. And so began the inspiring story of an ordinary family's courage and determination to make the most of a terrible situation. Matthew has astounded doctors with his adaptation to a new way of living, so much so that he is about to become a bionic man. And he has never once questioned Diane's decision - it gave him the chance to truly understand how much family matters and to appreciate humanity.
