The Age of Surveillance Capitalism Shoshana Zuboff,2019-01-31 THE TOP 10 SUNDAY TIMES BESTSELLER Shortlisted for the FT Business Book of the Year Award 2019 'Easily the most important book to be published this century. I find it hard to take any young activist seriously who hasn't at least familarised themselves with Zuboff's central ideas.' - Zadie Smith, The Guardian The challenges to humanity posed by the digital future, the first detailed examination of the unprecedented form of power called surveillance capitalism, and the quest by powerful corporations to predict and control us. The heady optimism of the Internet's early days is gone. Technologies that were meant to liberate us have deepened inequality and stoked divisions. Tech companies gather our information online and sell it to the highest bidder, whether government or retailer. Profits now depend not only on predicting our behaviour but modifying it too. How will this fusion of capitalism and the digital shape our values and define our future? Shoshana Zuboff shows that we are at a crossroads. We still have the power to decide what kind of world we want to live in, and what we decide now will shape the rest of the century. Our choices: allow technology to enrich the few and impoverish the many, or harness it and distribute its benefits. The Age of Surveillance Capitalism is a deeply-reasoned examination of the threat of unprecedented power free from democratic oversight. As it explores this new capitalism's impact on society, politics, business, and technology, it exposes the struggles that will decide both the next chapter of capitalism and the meaning of information civilization. Most critically, it shows how we can protect ourselves and our communities and ensure we are the masters of the digital rather than its slaves.

Toujours Tingo Adam Jacot de Boinod,2007-11-01 Why would Germans accuse you of being like the donkey getting cross with a rabbit? Who would a Spaniard tell to go and fry asparagus? And when might the French claim they are without a radish? Furthering your knowledge of the world's unusual idioms, Toujours Tingo will also explain how ordering 'lamb' in Ethiopia may see a cow delivered to your table, and how politicians in Sweden may be encouraged occasionally to göra en hel Pudel ('do a full poodle') with some humble apologising. Covering such wide-ranging linguistic necessities as arguing, raising

children, working and dining out, and filling all those gaps that English leaves thoughtlessly unplugged, this book's charm would – for Russians at least – be ežiku ponjatno (obvious even to a hedgehog).

The Global Nomad's Guide to University Transition Tina L. Quick,2010 Children who grew up interacting with two or more cultures during their developmental years often have an inability to connect with their home-country peers. This guide addresses the common issues students face when they are making the double transition of not only adjusting to a new life-stage, such as college, but to a cultural change as well.

Living Elsewhere Cath Brew,2018-02-21 We've all experienced that surreal situation when you don't know whether to laugh or to cry. Sometimes you do both! Living away from the place you once called 'home' can be exciting, stressful and disorientating. Culture shock can hit hard leaving you angry and resentful. At times like this, laughter is often the best medicine.

Story-Based Inquiry: A Manual for Investigative Journalists Mark Lee Hunter,gratuit,Unesco,2011 Investigative Journalism means the unveiling of matters that are concealed either deliberately by someone in a position of power, or accidentally, behind a chaotic mass of facts and circumstances - and the analysis and exposure of all relevant facts to the public. In this way investigative journalism crucially contributes to freedom of expression and freedom of information, which are at the heart of UNESCO's mandate. The role media can play as a watchdog is indispensable for democracy and it is for this reason that UNESCO fully supports initiatives to strengthen investigative journalism throughout the world. I believe this publication makes a significant contribution to promoting investigative journalism and I hope it will be a valuable resource for journalists and media professionals, as well as for journalism trainers and educators. -- Jānis Kārklinš, Assistant Director-General for Communication and Information, UNESCO, Preface, page 1.
